

Ride the  with Google maps?

Sure,

**If you don't mind ending
up in the wrong place!**

**The MBTA's electronic route
information has been wrong for
over six years.**

**They know about the problem and have done
nothing to fix it.**

Want proof? Go to www.mbta.com and tell the trip planner you want to go from Washington St. & Foster St., 02135 to Washington St. & Walnut St., 02460 at 8am (or just visit <http://tinyurl.com/badTroute>). It'll tell you to catch route 554 outbound at 400 Centre St. There's just one problem – the 554 outbound doesn't stop at 400 Centre St!

I notified the T about this problem in April 2003. They acknowledged the problem then, but it's still broken 6½ years later! I notified them again earlier this month, and they blew me off.
